Reverse Engineering Course

Dynamic Analysis II

Barak Gonen

Finding main with the stack

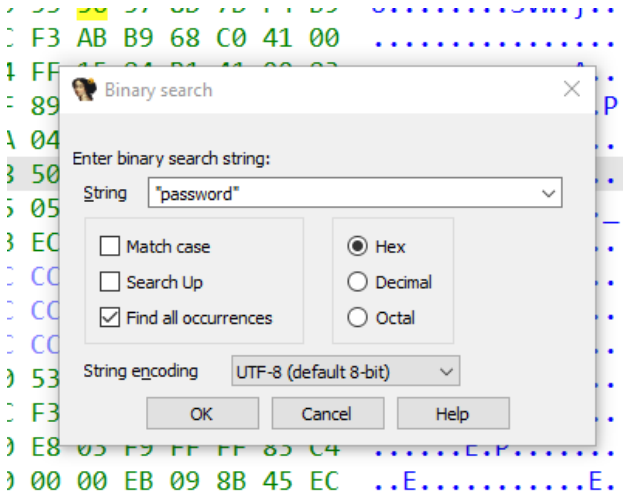
המרכז לחינוך סייבר
CYBER EDUCATION CENTER

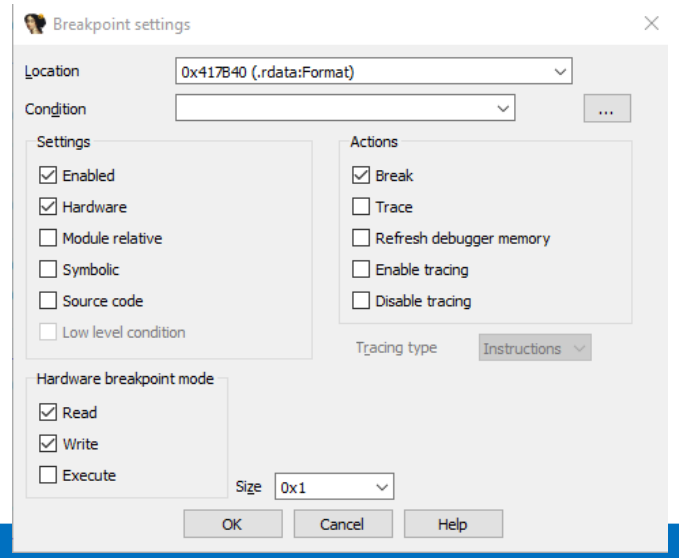
- Step 1: take whatever program prints and search
- Step 2: any print should be called originally from main
- Step 3: look at the stack- return addresses

Finding main with the stack

המרכז לחינוך סייבר
CYBER EDUCATION CENTER

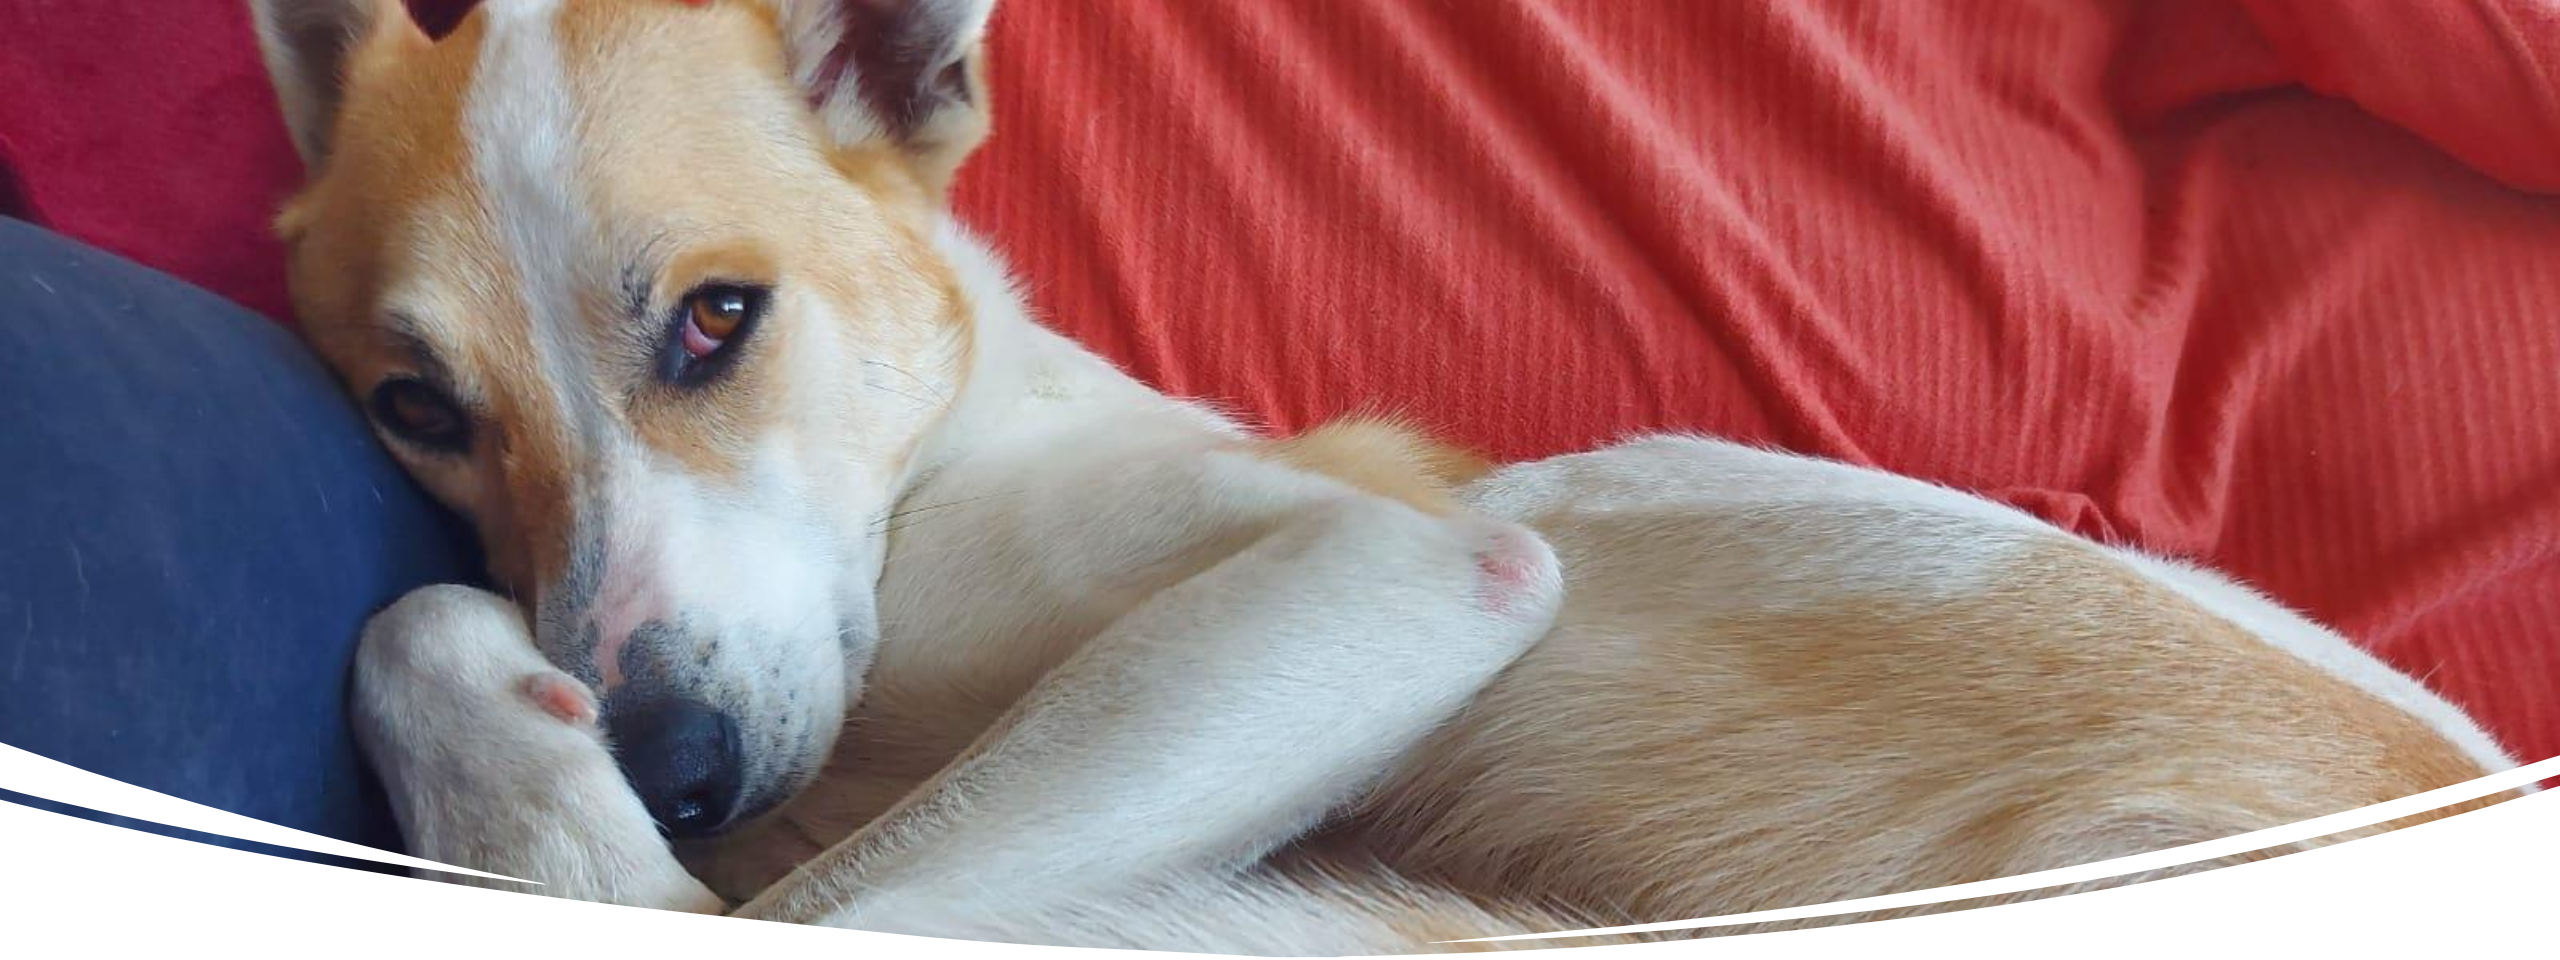
- IDA:
  - Hex view
  - Alt + B – find pattern
  - Debugger->Breakpoints->Add
    - Hardware
  - Run
  - View stack – return addresses
    - Ctrl+F7 – go up





GoUp

- https://data.cyber.org.il/reversing/GoUp.exe
- Solve as quickly as you can



Classwork

- https://data.cyber.org.il/reversing/MyDog5.exe
- Find the password
